

RHYL PHOTOGRAPHIC SOCIETY

Members Guide to Competition Entries

This guide outlines the rules of competitions including image submissions for competitions.

1.0. Competition Entry dates.

Wherever possible there will be two entry dates for submission of images, week one and week two. Either is acceptable, but there can be no extensions to this as it is vital that entries are received by judges to allow time for examination and consideration of the entries. The first dates for submissions are shown in the programme on the club website.

2.0 Grades of competition entry.

There are currently four sections for entries - Colour Prints, Monochrome Prints, Digital Projected Images & Colour Slides.

The Colour Print and Digital Projected Image sections will have two Grades: Grade 1 & Grade 2.

Grade 2 is for those members who feel they are not yet ready to enter the more advanced level of Grade 1. Members are free to choose which Grade to enter but it is expected that those members who have been fairly successful in competitions to date would enter Grade 1.

Monochrome Prints and Slides will just have one grade. This is for the time required to judge a competition and the rules may change dependant on the number of images submitted. Please refer to the RPS website for updates.

3.0 Number of submitted images allowable

Maximum of 2 entries in each eligible section by each member.

Prints must be not less than 7" x 5", though a minimum size of 10" x 8" is Recommended.

Suggested Maximum print size is 400mm x 500mm **including mount**. Absolute maximum print size is 16" x 20" **including mount**. *See *NOTE 4*.

Print entries must be marked with: TITLE, MEMBERSHIP NUMBER & GRADE. Member's names must **not** appear on entries.

Placed (1st, 2nd or 3rd) entries are banned from re-entry to competitions for the rest of the season. They are re-eligible for the following season's competitions. Pilkington's Trophy winners are banned from entering the winning images into all competitions in the same season as the Pilkington's Trophy competition.

Toned and Hand - Coloured Monochrome Prints

Toned Monochrome prints may have only one additional colour. Split-toned prints or prints with more than one added colour must be entered in the colour section.

4.0 Additional Rules for Projected Digital Images.

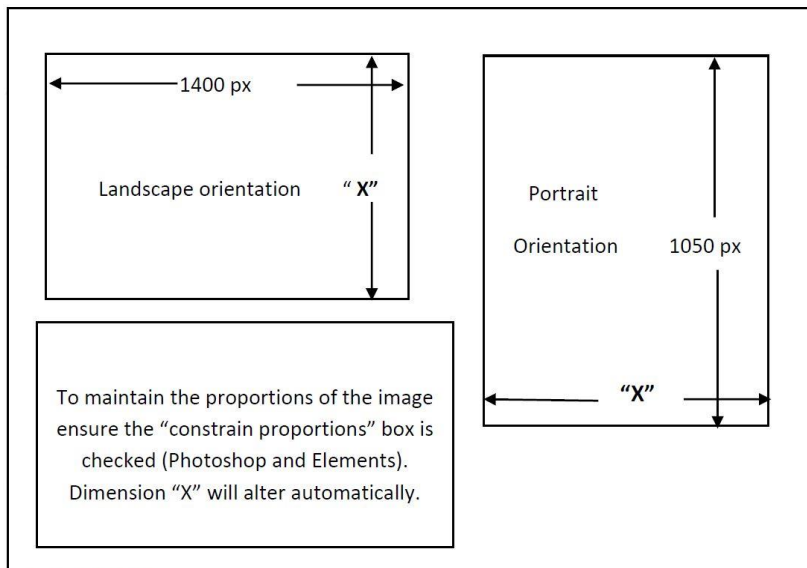

Members may enter up to 2 digital images, on a pen drive (USB Key) or submitted by e-mail to the Competition Secretary (preferred), which must be clearly labelled with the Membership Number.

Images should be high quality JPG, sized at 1400 pixels on the longest side for landscape orientated images and 1050 pixels on the longest side for portrait orientated images high to match the projector resolution. If the picture is smaller than these dimensions, then fill the surrounding area with black.

Please ensure the image colour space (profile) is set to sRGB. This will ensure that the image projects properly and meets the requirements of all external competitions.

The resolution should be a maximum of 300dpi.

Below is a guide to resizing images.

Submission via Pen Drive (USB key)

If submission is **via pen drive** (USB key) then create a Folder named with the competition title, date & grade as the example below.

Open - 16-Nov-17 – Grade 1 or Grade 2

Place your images in the folder and name them as follows:

The image file names as 'Membership Number' + 'Title' as the example below:

78 - Sea view

78 - Seascape

Submission via e-mail.

In the e-mail message title bar write as the example below:

Open-16-Nov-17 Grade 1 or 2 (identify whether Grade 1 or Grade 2)

Name your images as follows:

The image file names as 'Membership Number' + 'Title' e.g.:-

78 - Sea view

78 - Seascape

Attach the images to your e-mail

Send your images to the Competition Secretary at pixels4me@gmail.com.

What may happen to your images?

Images will be copied onto a PC in order to create a file of all entries for the judge to view. Images may be retained on the PC for use in future competitions, external battles or other club events. Members may request that their images are removed and not used in other events if they so wish.

Placed and commended images will be added to the club website. Members can request their removal.

Slides.

It is recommended that slides be glass-mounted to protect them. Members *can* enter non-glass-mounted slides if they prefer but this must be at their own risk.

Slides **must** be "spotted" correctly for projection - the spot must be in the bottom left hand corner when the slide is viewed the right way up. ***Un-spotted slides will not be accepted. Incorrectly spotted slides will be projected as spotted.***

Slides should be marked with **TITLE** and **MEMBERSHIP NUMBER**

All points will be allocated by the Competition Secretary during the course of the competition and the usual running total will be kept to be used for the end of season trophies.

The points scored in each section of the monthly competitions go towards the Annual Championship, where members' best 15 scores are taken into account to decide on the winner of each section.

5.0 Printed Image Mounting

Important Note

Mounting an image in a cut open aperture mount with backboard is recommended, however if this is not possible all images shall be mounted on a board sized to leave a border of the mount showing. This both increases the viewing pleasure, but also prevents damage in transit and to other images contained in the transit box. It is very important to ensure that any fixing tapes securing the backboard to a cut aperture mount is tape specifically

manufactured for this purpose. Please do not use trade or other masking tapes as these detach and will damage any image surface resting on it.

***NOTE: Maximum mount size.**

400 x 500 mm is the new maximum size accepted by the NWP & PAGB. Many clubs are also adopting this rule. This size also fits better into the print boxes used for transporting competition entries.

However, because 400x500 is slightly smaller than the traditional 16x20 inches, mounts don't fit very well into a 16" x 20" picture frame (as used in club exhibitions).

16" x20" mounts only just fit into the print boxes, therefore entries which are even slightly larger cannot be accepted.

Scoring System
Each entry will receive 1 point.
In addition:
Commended: 3 points
Highly Commended: 4 points
3rd Place: 5 points
2nd Place: 6 points
1st Place: 7 points

Important Note: The Rhyl Photographic Society website www.rhylphotosoc.co.uk contains all the information included here. Please check the website on a regular basis to check for any changes and updates.
